Fresh conditions today with huge wind shifts.																											
Well done to Dan who just beat Don with Tom 3rd.																											
JR took the Scr series ( I looked up previous results when we had sailed 5 races and only 1 worst race is dropped.)																											
Don was 2nd and Tom 3rd. Well done everyone.																											
There were a few misdemeanours today. All I would say is we have to be a bit lenient in those conditions as manouvering is harder and things happen quicker.
